

February 10, 2010

Dear Tuscaloosa Neighbors,

On February 8, 2010 the members of the Tuscaloosa Neighbors Together (TNT) unanimously voted to support the petition safeguarding the greater Original City Association (OCA) neighborhoods from potential traffic hazards that might occur from impeding commercial development near residential neighborhoods in downtown Tuscaloosa. We feel that the City Council should adhere to its own Greater Downtown Plan which seeks to protect existing residential neighborhoods. The continued safety and well-being of these neighborhoods should remain the focus of any further commercial development in that area.

We sincerely hope that the majority of residents in the OCA will support this petition which sends a clear message to our Mayor and City Council members that we value our downtown neighborhoods and the safety of the families who live there.

Sincerely,

A handwritten signature in black ink that reads 'Nancy Lambert-Brown'.

Nancy Lambert-Brown
President, TNT
